COL. JOHN A. HOOPER, SR.

COL. JOHN A. HOOPER, SR.

Col. John A. Hooper, Sr., is the son of the late Joseph Hooper, who was a distinguished numismatist. Born in Plymouth, England in 1832, the Colonel's father came to New York in 1849 to join relatives of the old Massachusetts colony who had come over long before 1776, bringing a few coins and curios with him on the sailing vessel. Joseph Hooper was one of the organizers and charter members of the American Numismatic Association, being the recognized assistant founder to the late Dr. Heath, and the leading writer for the "Numismatist" from its first day of publication. Later, Joseph Hooper was president of that fine body of numismatists, the A.N.A. He died in Rochester, N. Y., in 1914.

Col. Hooper continued the collecting interests of his father, but the Colonel is now retired, and he and Mrs. Hooper are now traveling and touring almost continuously. In a letter Col. Hooper says, "With absolutely no chance to see or exhibit my collection, I am compelled to give friends and collectors an opportunity of securing some of their wants. I regret to dispose of it, but some of it I have not had the chance to see for four or five years. I bought nearly all at auctions, never sold a coin or medal in my life, never exchanged, so I must be classed as a collector."

For nearly forty years Col. Hooper was an editor and publisher, as president of the Hooper Publishing Co., publishers of trade journals, etc. Since 1910 he has been honorary president of the 'Tourists' Society, Inc., and he is a noted traveler and lecturer. In 1922 he won the famous Hudson Bay gold medal for travel and exploration. He was the first tourist to reach Hudson Bay, farthest north, before the present route was completed. He has made nine trips to Alaska. He spoke in hundreds of churches, clubs, chautauquas, etc., showing colored slides and films of his travels, and did this gratis or for charity.

The colonel spent four years and \$5,000 in organizing the Old-Timers' Pioneer Philatelic Phalanx, of which he is Commander-in-Chief. The colonel is an ex-military service man, the holder of many medals and honors. Col. Hooper is a member of no less than 20 different numismatic and philatelic clubs, as well as numerous chambers of commerce, and fraternal orders and societies.

TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25 % of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. Stamps accepted for accounts that are below one dollar only.

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

No unlimited bids will be accepted from anyone, at this sale. Mark your highest limit or bid on the bid sheet, and we will buy as much under this price, as other actual bids permit. **Get your bids in before the date of sale.** Don't wait until the last minute. Help us with our work and we will help you get something.

The usual charge of 5 % will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. **Your check, draft or money order itself is a receipt.** However, if a 3-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for **your mistakes.** Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and **at so much per piece.**

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

Between the seller and buyer, my position is describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

NOTE—A printed list of all the prices realized at this sale will be sent for fifty cents (50c). Send coin or stamps with your bids so as to reserve a price list, or if you prefer, we will add the cost to your bill of items purchased for you at this sale. Keep posted on coin values as they are today, and order a price list in advance of the sale. After the sale they cost \$1. Before, they are 50 cents.

Collections are safe in our hands, and you are insured against loss of any kind. Bank references furnished as to our financial reliability. Collections or single specimens or small lots also purchased for cash, and liberal offers made.

A TRIP ABROAD

(Continued from 131st catalogue)

An afternoon train took us to quaint old Nuremburg, second largest city in Bavaria, next to Munich in size, with 400,000 people, and today the most mediaeval appearing city of Europe. The first mention of Nuremburg in history, appears on an old document dated 1050, and about this time it received from Henry III a permit to establish a mint and market and a custom house. Like Augsburg, its wealth came in mediaeval times from the trade between Italy and the near east on the one hand, and northern Europe on the other. The beginning was a fine old castle, and the mediaeval city was surrounded by a wall and towers, a portion which remains today. In times gone by, the caravans of the Nuremburg merchants were carefully guarded to all parts of Europe. The first watches were made here, and other Nuremburg inventions include the air-gun, gun-locks, and the art of wire drawing. In the modern times the toy shops here are famous, and many Nuremburg wares including wood carvings and fancy metal articles. Fourteen quaint old arched bridges cross the Pegnitz river, a tributary of the Main, on which the city is built. These bridges are picturesque, and the narrow and crooked streets, faced by gables of old houses most of them built in the 15th and 16th centuries, and their red tile roofs, all are very interesting. It was the first imperial town to embrace Protestantism, about 1525. The National Museum houses many fine works of art, and Albert Durer's home is worth a visit.

The old castle was built on a rock in the north part of the present town. Part of the castle is the Pentagonal Tower wherein are preserved the famous "iron virgin of Nuremburg" instruments of torture. Here is a big collection of "scrap-iron," with every conceivable invention that could be used for torture. Dark dungeons, torture chambers with hundreds of wicked instruments, pillories, stocks, all remind you of terrible suffering gone with the wind. One of the meanest tortures, it seemed to me, and one that I would not care to experience, consisted of a bed of sharp spikes. The ankles and neck and wrists of the nude body were locked in irons on this bed. Then an iron crank was turned, and the bed and body was stretched out, causing untold agony.

The Church of St. Lawrence is the finest church of the many and very beautiful. The entrance and the stained glass windows are marvelous. The architecture is Gothic style, and there are two tall towers and spires in front. The city has one of the most beautiful stadiums in the world, and very fine recreational centers. The shops are of much interest, and in particular the toy shops. Collectors who are looking for the tiny gold coins and gold ducats of old Nuremburg, and the low-priced and common old silver crowns of this city, will find more of them in the stock of any dealer in this country, and at a more reasonable price.

(To be continued)

For over 50 years its monthly visits have been a source of inspiration and a stimulus to all grades of collectors, from the beginner to the advanced student.
